#### Recommendations The Steelite Experience

Brian Landry Chef/Owner QED Hospitality • The Kitchen Table • Clermont, KY

Our restaurant, The Kitchen Table, is located on the Kentucky Bourbon Trail. When opening our restaurant, we wanted pieces that were upscale and comfortable, pieces that would highlight the nature of the bourbon trail. The Steelite products we selected are the perfect balance between high-end quality and comfort.

#### Recommendations The Steelite Experience

Jorge L. Feliz German President Karisma Dominicana & General Director • Karisma Hotels & Resorts
In collaboration with Steelite, we developed a dinnerware and glassware product guide that is used for all of our restaurant concepts globally. The product catalog complements our Gourmet Inclusive Concept and allows us to provide a unique experience for our guests.

## Axis Buffet Collection

#### Limitless configurations

The Axis Buffet Collection brings a clean, structured aesthetic to any buffet setup, inspired by the linear elegance its risers create. Designed for height and versatility, Spire Risers add dramatic elevation with three height options, maximizing vertical space while conserving tabletop surface. The central Pivot Risers offer a functional core to the collection, accommodating all gastronorm-sized tiles and baskets, and are available in three heights to add depth and dimension to any presentation. With limitless configurations, the Axis Buffet Collection adapts effortlessly to meet every display need, bringing style and functionality to every setting.

# Fusion Buffet System

## Sophistication for any setting

The Fusion Buffet System is a unique and versatile solution for your foodservice presentation. With multi-sized risers, juicers, and baskets, you can mix and match your display with the numerous wood & metal finishes available.

Designed from reclaimed wood, the teak products are environmentally friendly and cost effective, while its natural properties make it resistant to heat, light and moisture. Resin, tempered glass or teak wood tiles can also be used to add new heights, while the 14" risers can be outfitted with universal inserts that make cooking and heating easier.

## Cold Buffet

#### Introducing the D.W. Haber Ice Cell

The perfect solution for keeping your buffet food fresh and chilled for extended periods! This innovative chilling system is designed to keep food cold for at least 3 hours, ensuring freshness and quality. Keeping food at the right temperature is crucial to prevent bacterial growth and maintain its taste and texture. The D.W. Haber Ice Cell is specifically designed to fit the standard and low profile Fusion Gastronorm risers, available in 4 finishes: Ash Grey, Grey Wash, and Natural Teak wood, plus Black Teflon.

1. Store the cooling blocks in the freezer overnight for the best results.

2. Place the cooling blocks in the BPA free tray, and set the temperature equalizers on top of the blocks to maintain even cold distribution.

3. Add the porcelain Gastronorm platter and enjoy chilled food for at least 3 hours.

#### Chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a conveniently large glass view in the lid to increase visibility of the food. This features allows for fewer opens, thus keeping the heat in and the food remains at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.

# Idol™ NSF

#### NSF certified and loaded with great features

Tested & approved by the NSF organization, the Walco Idol™ NSF Chafer has an induction ready bottom and a slow closing hinge that ensures the Iid will not slam shut during operation. A "dripless" design with ventilation allows condensation on the Iid to flow back into the water pan as opposed to on the countertop. With built-in grooves for an NSF-approved serving spoon and tongs, service is convenient, handles won't fall into the food, and the Iid closes perfectly to keep the heat in.

#### Cleverly designed for your buffet presentation

D.W. Haber's Rolltop Chafers feature the acclaimed patented balance-cover mechanism which prevents the lid from slamming back. These stainless steel vessels have a clever condensation return which returns water back to the water pan, and are also available with electric heat. The chafers work well in any buffet occasion, and pair perfectly with the hinged and liftoff-lid marmites. Available in Tempo or Millennium, D.W. Haber chafers pair with a wide variety food pans to accommodate your foodservice needs.

# Induction, Chafing Fuel & Burners

Commercial catering is easier with induction, chafing fuel and burner solutions from Steelite. The best alternative to open flame, induction technology utilizes magnetic currents to heat pots, pans & chafing dishes to provide a safe & efficient cooking experience. Chafing fuel from Hollowick is portable, easy to use, and provides consistent heat for hours, making them the ideal choice for catering events. Butane burners, on the other hand, are great for outdoor events and provide high performance heat in a cordless fashion. The combination of the three options gives any foodservice operator the flexibility to host a variety of events, ensuring that food is cooked & served at the right temperature for maximum enjoyment.

# **Chafing Fuel**

# Easy Heat®

#### Maximum heat performance

The proper placement of any chafing fuel source is critically important to have maximum heat performance. With Hollowick Easy Heat\* Chafing Fuels, the wick is adjustable to accommodate different temperature levels and the can stays cool for easy handling. Simply adjust the wick to change the heat output between standard, low and high, then place on the fuel holder or table beneath to properly heat the chafing dish.

# Hollowick Chafing Fuel

# Easy Heat®

#### Consistent flame & adjustable heat

Easy Heat\* liquid chafing fuels are the go-to choice for buffet service. With a consistent flame for even heat, the wicks are located outside the canister keeping the flame position the same as it burns and the can cool so servers can easily handle during service. The wicks are also easily adjustable to provide different levels of heat to suit operator needs. Comprised of Diethylene Glycol, Hollowick's Easy Heat\* fuels are non-flammable and enclosed in a sealed canister to prevent spill accidents and reuse on separate occasions.

### **Custom Powder Coating**

### Custom powder coating

Powder Coating is a popular option for buffet products in the commercial foodservice industry. It's a type of coating that is applied as a free-flowing, dry powder to the surface of a product. Powder coating creates a hard, durable finish that is resistant to scratches, chipping and fading, making it ideal for high volume use and a demanding buffet service environment. It also enables operators to tailor the color & finish of chafing dishes, urns, or heat lamps to match their brand or decór. Available in a vast selection of colors or finishes, create a professional and cohesive look on any buffet service with custom powder coating. Contact us today to learn more!

## V-Shield Breath Guards ☆☆☆

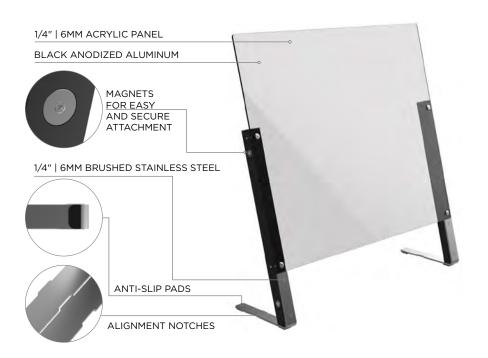

### Standalone shield to fit any flat surface

The perfect addition to any buffet or station, Mogogo V-Shield Breath Guards can be used on most existing flat surfaces of any length, with features to turn corners and shield the ends. The brushed stainless steel black legs are equipped with magnets, notches, and anti-slip pads for additional stability and a clean gap-free appearance, while the acrylic shields are available in several sizes to accommodate your needs.

### **END PANELS**

The V-Shield end panels are aimed to complete any guard configuration and provide a safe environment for both the guest and server.

### **CORNER PANELS**

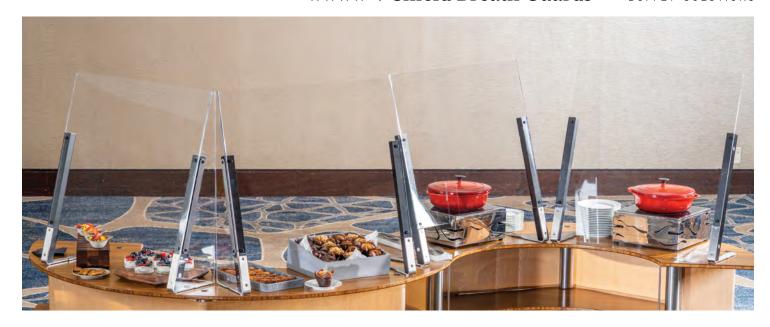

The V-shield corner panels are designed to create configurations that require tight corners or a gentle radius, while maintaining a tight seal.

# Care & Use Guide

Seventy percent of product damage/ loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys. All items should be separated into type prior to washing. All washing equipment chemicals should be maintained and checked regularly. Check stock often; storage facilities should allow for stock rotation to prevent overuse.

- · Do not overfill the upright flatware baskets
- If using a low temperature dishwashing system, carefully follow the manufacturer's instructions to avoid staining or corrosion
- On completion of the wash, allow the flatware to air dry, hand dry if necessary
- Be sure flatware is completely dry before storing in a dry location away from the kitchen

## Steak Knives

#### **WOOD HANDLED KNIVES**

- Handwashing is recommended for the best performance and optimal product life
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly
- Water and harsh detergents will dull the finish and dry out the handles
- It is recommended that the wooden handles be oiled as needed

### **ABS (RESIN) HANDLED KNIVES**

- · Low temp dishwasher safe
- · Wash knives with warm water and a mild detergent,
- Rinse well and dry thoroughly
- Not recommended for high temp dishwashers that exceed  $167^{\circ}\text{F} / 75^{\circ}\text{C}$
- Knives should not be exposed to extreme temperature changes, which will cause the abs handle material to crack over time

#### STAINLESS STEEL KNIVES

- Dishwasher safe
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly

#### **BLADE SHARPENING**

- · Serrated blades cannot be sharpened
- Blades with no serrations can be sharpened as needed
- The frequency will depend on how often the knives are used and how well they are maintained

### THINGS TO AVOID

- Avoid soaking knives; they should be cleaned immediately after use to prevent damage caused by certain foods
- Avoid using abrasive cleaners, scouring pads, oven cleaners or cleaners containing chlorine bleach or citric extracts
- Avoid cutting on hard surfaces such as stone, metal or glass
